Strain rate induced stress corrosion cracking in buried pipelines	24
G. Gabetta, S. Di Liberto, A. Bennardo, and N. Mancini	
Corrosion failure of sensor wire in leak detection system of thermally insulated underground pipeline	29
Jung-Gu Kim and Yoon-Je Choi	
Effects of hydrogen on formation of passive films on AISI 310 stainless steel	33
Z. Qin, P. R. Norton, and J. L. Luo	
Electrolyte and temperature effects on pitting corrosion of type 316LN stainless steels	36
S. Ningshen, U. Kamachi Mudali, and R. K. Dayal	
Mechanistic changes in cut edge corrosion induced by variation of inhibitor pigmentation in organically coated galvanised steel	42
H. N. McMurray, S. M. Powell, and D. A. Worsley	
Corrosion and erosion-corrosion of electrodeposited Ni-P/B ₂ C composites	49
B. Bozzini, P. L. Cavallotti, and G. Parisi	
Chromate passivation of hot dipped Zn25Al alloy coatings	56
Y. Li, H. Wang, B. Hou, F. Feng, and X. Wei	
Electrochemical behaviour of copper-silver alloys in sodium carbonate aqueous solution	59
A. M. Zaky	
Effect of heat treatment on corrosion behaviour of deposited Fe-40Al intermetallics	65
J. G. Gonzalez-Rodriguez, M. Casales, M. Amaya, and L. Martinez	
Corrosion assessment of reinforced concrete structures in corrosive environments in Chinese chemical industry	70
Huo Da, K. R. Gowers, Wang Dongwei, Li Dawang, Zhao Zhuo, and S. G. Millard	
Use of galvanostatic pulse measurements on active reinforcing steel in concrete to assess corrosion rates	75
D. W. Law, S. G. Millard, and J. H. Bungey	
Metal and inorganic ion accumulation in biofilms exposed to flowing and stagnant water	105
S. L. Percival, J. S. Knapp, D. S. Wales, and R. G. J. Edyvean	
Corrosion of Ni-Al high velocity oxyfuel thermal mass spray coating by fly ash and synthetic biomass ash deposits	111
J. A. Hearley, C. Liu, J. A. Little, and A. J. Sturgeon	
Coking of HP tubes in ethylene steam cracking plant and its migration	121
X. Q. Wu, H. M. Jing, Y. G. Zheng, Z. M. Yao, and W. Ke	
Comparison of inhibition efficiency of some azoles on corrosion of type 304 stainless steel in acidic solutions	127
A. M. Al-Mayouf, A. K. Al-Ameery, and A. A. Al-Suhybani	
Inhibition effect of some surface active agents on dissolution of copper in nitric acid	133
A. K. Maayta, M. B. Bitar, and M. M. Al-Abdallah	
Electrochemical behaviour of Cu-Ni alloy in 3%NaCl medium polluted by sulphides: effect of aminotriazole	136
A. Laachach, A. Sghiri, C. Fiaud, and A. Benbachir	
Cyclic voltammetry behaviour of α brass in alkaline media	143
F. H. Assaf, S. S. Abd El-Rehim and A. M. Zaky	
Electrochemical ac and dc response of copper in sea water at different anodic potentials	151
E. Garcia, J. Uruchurtu, and J. Genesca	
Effect of state of sea on atmospheric corrosion in coastal zones	157
S. Feliu, M. Morcillo, and B. Chico	
Electrochemical corrosion behaviour of type 316 stainless steel in acid media containing fluoride ions	179
M. C. Li, C. L. Zeng, H. C. Lin, and C. N. Cao	
Role of surface finish and post-fabrication cleaning on localised corrosion of type 316L austenitic stainless steel flash chambers	184
F. El Shawesh, A. El Houd, and O. Raghai	
Composition and morphology of corrosion products formed on galvanised steel exposed to a swimming pool atmosphere	191
A. El-Turki, G. C. Allen, and K. R. Hallam	
Use of dicyclohexylamine nitrite in inhibition of coupled zinc and steel	197
E. Khamis, S. R. Oun, and S. B. Lyon	
Influence of temperature on sea water immersion corrosion of aluminium (UNS A95086)	201
R. E. Melchers	
Early stages of copper protection in chloride solution containing ferrous sulphate	205
A. A. El Warraky	
Assessment of test methods for evaluating effectiveness of corrosion inhibitors in retarding propagation of localised corrosion	210
A. Turnbull, D. Coleman, and A. J. Griffiths	
Electrochemical behaviour of molybdenum electrodes in various aqueous and buffered solutions and their use in titrations	215
H. A. El Shayeb, F. M. Abd El Wahab, and E. A. Abd El Meguid	
Effects of microcrystalline phases in defects on corrosion of rapidly solidified Ti ₄₇ Cu ₅₃ and Ti ₅₀ Cu ₅₀ alloys	221
R. S. Dutta, R. T. Savalia, and G. K. Dey	
Corrosion evaluation of artificially aged 6 wt-% tin bronze	227
G. Brunoro, G. Laguzzi, L. Luvidi, and C. Chiavari	
Inhibiting effects of some quinolines and organic phosphonium compounds on corrosion of mild steel in 3M HCl solution and their adsorption characteristics	253
M. S. Abdel-Aal and M. S. Morad	
Inhibition of steel by alkylamine ethoxylate in petroleum production	261
S. T. Keera	
Atmospheric corrosivity map for steel in Canary Isles	266
J. J. Santana, J. Santana, J. E. Gonzalez, D. De La Fuente, B. Chico, and M. Morcillo	
Enclosed atmospheric corrosion in ship spaces	272
C. P. Gardiner and R. E. Melchers	
Microbially influenced corrosion on stainless steel in waste water treatment plants: Part 1	277
A. Iversen	
Microbially influenced corrosion on stainless steel in waste water treatment plants: Part 2	284
A. Iversen	

New strain of anaerobic bacteria and its association with corrosion pitting of X52 pipeline steel	
B. Angeles-Chavez, J. M. Romero, M. Amaya, L. Martinez, and R. Perez	292
Cut edge corrosion mechanisms in organically coated zinc-aluminium alloy galvanised steels	
M. Challis and D. A. Worsley	297
Influence of welding techniques on microstructure and pitting corrosion behaviour of 1441 grade Al-Li alloy gas tungsten arc welds	
G. M. Reddy, A. A. Gokhale, N. N. Janaki Ram, and K. P. Rao	304
Corrosion of C-Mn steel in simulated tidal and immersion zones	
B.-R. Hou, J.-L. Zhang, H.-Y. Sun, Y. Li, and B. Xiang	310

Subject index 2001

gas tungsten arc welds G. M. Reddy, A. A. Gokhale, N. N. Janaki Ram, and K. P. Rao	304
Anaerobic bacteria New strain of anaerobic bacteria and its association with corrosion pitting of X52 pipeline steel B. Angeles-Chavez, J. M. Romero, M. Amaya, L. Martinez, and R. Perez	292
Anodic processes Corrosion failure of sensor wire in leak detection system of thermally insulated underground pipeline Jung-Gu Kim and Yoon-Je Choi	29

Atmospheric corrosion		
Effect of state of sea on atmospheric corrosion in coastal zones S. Feliu, M. Morcillo, and B. Chico	157	
Composition and morphology of corrosion products formed on galvanised steel exposed to a swimming pool atmosphere A. El-Turki, G. C. Allen, and K. R. Hallam	191	
Corrosion evaluation of artificially aged 6 wt-% tin bronze G. Brunoro, G. Laguzzi, L. Luvidi, and C. Chiavari	227	
Atmospheric corrosivity map for steel in Canary Isles J. J. Santana, J. Santana, J. E. Gonzalez, D. De La Fuente, B. Chico, and M. Morcillo	266	
Enclosed atmospheric corrosion in ship spaces C. P. Gardiner and R. E. Melchers	272	
Austenite		
Electrolyte and temperature effects on pitting corrosion of type 316LN stainless steels S. Ningshen, U. Kamachi Mudali, and R. K. Dayal	36	
Bimetallic corrosion		
Use of dicyclohexylamine nitrite in inhibition of coupled zinc and steel E. Khamis, S. R. Oun, and S. B. Lyon	197	
Biofilms		
Metal and inorganic ion accumulation in biofilms exposed to flowing and stagnant water S. L. Percival, J. S. Knapp, D. S. Wales, and R. G. J. Edyvean	105	
Brass		
Cyclic voltammetry behaviour of α brass in alkaline media F. H. Assaf, S. S. Abd El-Rehim and A. M. Zaky	143	
Buried pipelines		
Strain rate induced stress corrosion cracking in buried pipelines G. Gabetta, S. Di Liberto, A. Bennardo, and N. Mancini	24	
Carbonate		
Electrochemical behaviour of copper-silver alloys in sodium carbonate aqueous solution A. M. Zaky	59	
Cleaning		
Role of surface finish and post-fabrication cleaning on localised corrosion of type 316L austenitic stainless steel flash chambers F. El Shawesh, A. El Houd, and O. Raghai	184	
Coatings		
Corrosion and erosion-corrosion of electrodeposited Ni-P/B ₂ C composites B. Bozzini, P. L. Cavallotti, and G. Parisi	49	
Chromate passivation of hot dipped Zn25Al alloy coatings Y. Li, H. Wang, F. Feng, and X. Wei	56	
Corrosion of Ni-Al high velocity oxyfuel thermal mass spray coating by fly ash and synthetic biomass ash deposits J. A. Hearley, C. Liu, J. A. Little, and A. J. Sturgeon	111	
Coking		
Coking of HP tubes in ethylene steam cracking plant and its migration X. Q. Wu, H. M. Jing, Y. G. Zheng, Z. M. Yao, and W. Ke	121	
Concrete		
Corrosion assessment of reinforced concrete structures in corrosive environments in Chinese chemical industry Huo Da, K. R. Gowers, Wang Dongwei, Li Dawang, Zhao Zhuo, and S. G. Millard	70	
Use of galvanostatic pulse measurements on active reinforcing steel in concrete to assess corrosion rates D. W. Law, S. G. Millard, and J. H. Bungey	75	
Concrete resistivity		
Corrosion assessment of reinforced concrete structures in corrosive environments in Chinese chemical industry Huo Da, K. R. Gowers, Wang Dongwei, Li Dawang, Zhao Zhuo, and S. G. Millard	70	
Use of galvanostatic pulse measurements on active reinforcing steel in concrete to assess corrosion rates D. W. Law, S. G. Millard, and J. H. Bungey	75	
Copper		
Electrochemical behaviour of copper-silver alloys in sodium carbonate aqueous solution A. M. Zaky	59	
Inhibition effect of some surface active agents on dissolution of copper in nitric acid K. Maayta, M. B. Bitar, and M. M. Al-Abdallah	133	
Electrochemical ac and dc response of copper in sea water at different anodic potentials E. Garcia, J. Uruchurtu, and J. Genesca	151	
Copper alloys		
Effect of microcrystalline phases in defects on corrosion of rapidly solidified Ti ₄₇ Cu ₅₃ and Ti ₅₀ Cu ₅₀ alloys R. S. Dutta, R. T. Savalia, and G. K. Dey	221	
Copper-nickel alloy		
Electrochemical behaviour of Cu-Ni alloy in 3% NaCl medium polluted by sulphides: effect of aminotriazole A. Laachach, A. Srhiri, C. Fiaud, and A. Benbachir	136	
Corrosion maps		
Atmospheric corrosivity map for steel in Canary Isles J. J. Santana, J. Santana, J. E. Gonzalez, D. De La Fuente, B. Chico, and M. Morcillo	266	
Crack growth rate		
Strain rate induced stress corrosion cracking in buried pipelines G. Gabetta, S. Di Liberto, A. Bennardo, and N. Mancini	24	
Cut edge corrosion		
Cut edge corrosion mechanisms in organically coated zinc-aluminium alloy galvanised steels M. Challis and D. A. Worsley	297	
Electrochemical techniques		
Corrosion and erosion-corrosion of electrodeposited Ni-P/B ₂ C composites B. Bozzini, P. L. Cavallotti, and G. Parisi	49	
Chromate passivation of hot dipped Zn25Al alloy coatings Y. Li, H. Wang, F. Feng, and X. Wei	56	
Electrochemical behaviour of copper-silver alloys in sodium carbonate aqueous solution A. M. Zaky	59	
Effect of heat treatment on corrosion behaviour of deposited Fe-40Al intermetallics J. G. Gonzalez-Rodriguez, M. Casales, M. Amaya, and L. Martinez	65	
Use of galvanostatic pulse measurements on active reinforcing steel in concrete to assess corrosion rates D. W. Law, S. G. Millard, and J. H. Bungey	75	
Electrochemistry		
Electrochemical behaviour of molybdenum electrodes in various aqueous and buffered solutions and their use in titrations H. A. El Shayeb, F. M. Abd El Wahab, and E. A. Abd El Meguid	215	
Electrodeposition		
Corrosion and erosion-corrosion of electrodeposited Ni-P/B ₂ C composites B. Bozzini, P. L. Cavallotti, and G. Parisi	49	
Environmentally assisted cracking (EAC)		
Strain rate induced stress corrosion cracking in buried pipelines G. Gabetta, S. Di Liberto, A. Bennardo, and N. Mancini	24	
Environments		
<i>Acids</i>		
Comparison of inhibition efficiency of some azoles on corrosion of type 304 stainless steel in acidic solutions M. Al-Mayouf, A. K. Al-Ameery, and A. A. Al-Suhybani	127	
Inhibition effect of some surface active agents on dissolution of copper in nitric acid K. Maayta, M. B. Bitar, and M. M. Al-Abdallah	133	
Electrochemical corrosion behaviour of type 316 stainless steel in acid media containing fluoride ions M. C. Li, C. L. Zeng, H. C. Lin, and C. N. Cao	179	
<i>Chlorides</i>		
Early stages of copper protection in chloride solution containing ferrous sulphate A. A. El Warraky	205	

<i>HCl</i>			
Inhibiting effects of some quinolines and organic phosphonium compounds on corrosion of mild steel in 3M HCl solution and their adsorption characteristics M. S. Abdel-Aal and M. S. Morad	253		
<i>NaCl</i>			
Electrochemical behaviour of Cu-Ni alloy in 3%NaCl medium polluted by sulphides: effect of aminotriazole A. Laachach, A. Srhiri, C. Fiaud, and A. Benbachir	136		
<i>NaOH</i>			
Cyclic voltammetry behaviour of α brass in alkaline media F. H. Assaf, S. S. Abd El-Rehim and A. M. Zaky	143		
<i>Sea water</i>			
Electrochemical ac and dc response of copper in sea water at different anodic potentials E. Garcia, J. Uruchurtu, and J. Genesca	151		
Influence of temperature on sea water immersion corrosion of aluminium (UNS A95086) R. E. Melchers	201		
Corrosion of C-Mn steel in simulated tidal and immersion zones B.-R. Hou, J.-L. Zhang, H.-Y. Sun, Y. Li, and B. Xiang	310		
<i>Fly ash</i>			
Corrosion of Ni-Al high velocity oxyfuel thermal mass spray coating by fly ash and synthetic biomass ash deposits J. A. Hearley, C. Liu, J. A. Little, and A. J. Sturgeon	111		
<i>Galvanised coatings</i>			
Composition and morphology of corrosion products formed on galvanised steel exposed to a swimming pool atmosphere A. El-Turki, G. C. Allen, and K. R. Hallam	191		
<i>Galvanostatic pulse measurement</i>			
Use of galvanostatic pulse measurements on active reinforcing steel in concrete to assess corrosion rates D. W. Law, S. G. Millard, and J. H. Bungey	75		
<i>Hydrogen</i>			
Effects of hydrogen on formation of passive films on AISI 310 stainless steel Z. Qin, P. R. Norton, and J. L. Luo	33		
<i>Immersion tests</i>			
Chromate passivation of hot dipped Zn25Al alloy coatings Y. Li, H. Wang, F. Feng, and X. Wei	56		
Influence of temperature on sea water immersion corrosion of aluminium (UNS A95086) R. E. Melchers	201		
<i>Impedance</i>			
Corrosion assessment of reinforced concrete structures in corrosive environments in Chinese chemical industry Huo Da, K. R. Gowers, Wang Dongwei, Li Dawang, Zhao Zhuo, and S. G. Millard	70		
<i>Inhibitors</i>			
Mechanistic changes in cut edge corrosion induced by variation of inhibitor pigmentation in organically coated galvanised steel H. N. McMurray, S. M. Powell, and D. A. Worsley	42		
<i>Inhibitors and inhibition</i>			
Comparison of inhibition efficiency of some azoles on corrosion of type 304 stainless steel in acidic solutions M. Al-Mayouf, A. K. Al-Ameery, and A. A. Al-Suhybani	127		
Inhibition effect of some surface active agents on dissolution of copper in nitric acid K. Maayta, M. B. Bitar, and M. M. Al-Abdallah	133		
Electrochemical behaviour of Cu-Ni alloy in 3%NaCl medium polluted by sulphides: effect of aminotriazole A. Laachach, A. Srhiri, C. Fiaud, and A. Benbachir	136		
Use of dicyclohexylamine nitrite in inhibition of coupled zinc and steel E. Khamis, S. R. Oun, and S. B. Lyon	197		
Early stages of copper protection in chloride solution containing ferrous sulphate A. A. El Warraky	205		
Assessment of test methods for evaluating effectiveness of corrosion inhibitors in retarding propagation of localised corrosion A. Turnbull, D. Coleman, and A. J. Griffiths	210		
Inhibiting effects of some quinolines and organic phosphonium compounds on corrosion of mild steel in 3M HCl solution and their adsorption characteristics M. S. Abdel-Aal and M. S. Morad	253		
Inhibition of steel by alkylamine ethoxylate in petroleum production S. T. Keera	261		
<i>Intermetallics</i>			
Effect of heat treatment on corrosion behaviour of deposited Fe-40Al intermetallics J. G. Gonzalez-Rodriguez, M. Casales, M. Amaya, and L. Martinez	65		
<i>Landslides</i>			
Strain rate induced stress corrosion cracking in buried pipelines G. Gabetta, S. Di Liberto, A. Bennardo, and N. Mancini	24		
<i>Leak detection system</i>			
Corrosion failure of sensor wire in leak detection system of thermally insulated underground pipeline Jung-Gu Kim and Yoon-Je Choi	29		
<i>Linear polarisation resistance</i>			
Corrosion assessment of reinforced concrete structures in corrosive environments in Chinese chemical industry Huo Da, K. R. Gowers, Wang Dongwei, Li Dawang, Zhao Zhuo, and S. G. Millard	70		
<i>Linear sweep voltammetry</i>			
Corrosion and erosion-corrosion of electrodeposited Ni-P/B ₄ C composites B. Bozzini, P. L. Cavallotti, and G. Parisi	49		
<i>Localised corrosion</i>			
Role of surface finish and post-fabrication cleaning on localised corrosion of type 316L austenitic stainless steel flash chambers F. El Shawesh, A. El Houd, and O. Raghai	184		
Assessment of test methods for evaluating effectiveness of corrosion inhibitors in retarding propagation of localised corrosion A. Turnbull, D. Coleman, and A. J. Griffiths	210		
<i>Marine corrosion</i>			
Effect of state of sea on atmospheric corrosion in coastal zones S. Feliu, M. Morcillo, and B. Chico	157		
Enclosed atmospheric corrosion in ship spaces C. P. Gardiner and R. E. Melchers	272		
<i>Microbial corrosion</i>			
Microbially influenced corrosion on stainless steel in waste water treatment plants: Part 1 A. Iversen	277		
Microbially influenced corrosion on stainless steel in waste water treatment plants: Part 2 A. Iversen	284		
<i>Molybdenum</i>			
Electrochemical behaviour of molybdenum electrodes in various aqueous and buffered solutions and their use in titrations H. A. El Shayeb, F. M. Abd El Wahab, and E. A. Abd El Meguid	215		
<i>Nitrogen</i>			
Electrolyte and temperature effects on pitting corrosion of type 316LN stainless steels S. Ningshen, U. Kamachi Mudali, and R. K. Dayal	36		
<i>Organic coatings</i>			
Mechanistic changes in cut edge corrosion induced by variation of inhibitor pigmentation in organically coated galvanised steel H. N. McMurray, S. M. Powell, and D. A. Worsley	42		
Inhibition of steel by alkylamine ethoxylate in petroleum production S. T. Keera	261		
Cut edge corrosion mechanisms in organically coated zinc-aluminium alloy galvanised steels M. Challis and D. A. Worsley	297		
<i>Oxides</i>			
Effects of hydrogen on formation of passive films on AISI 310 stainless steel Z. Qin, P. R. Norton, and J. L. Luo	33		

Passivation		
Effects of hydrogen on formation of passive films on AISI 310 stainless steel	Z. Qin, P. R. Norton, and J. L. Luo	
Mechanistic changes in cut edge corrosion induced by variation of inhibitor pigmentation in organically coated galvanised steel	H. N. McMurray, S. M. Powell, and D. A. Worsley	
Chromate passivation of hot dipped Zn25Al alloy coatings	Y. Li, H. Wang, F. Feng, and X. Wei	
Effect of heat treatment on corrosion behaviour of deposited Fe-40Al intermetallics	J. G. Gonzalez-Rodriguez, M. Casales, M. Amaya, and L. Martinez	
Passive films		
Effects of hydrogen on formation of passive films on AISI 310 stainless steel	Z. Qin, P. R. Norton, and J. L. Luo	
Chromate passivation of hot dipped Zn25Al alloy coatings	Y. Li, H. Wang, F. Feng, and X. Wei	
Effect of heat treatment on corrosion behaviour of deposited Fe-40Al intermetallics	J. G. Gonzalez-Rodriguez, M. Casales, M. Amaya, and L. Martinez	
Pigments		
Mechanistic changes in cut edge corrosion induced by variation of inhibitor pigmentation in organically coated galvanised steel	H. N. McMurray, S. M. Powell, and D. A. Worsley	
Pipeline steels		
Strain rate induced stress corrosion cracking in buried pipelines	G. Gabetta, S. Di Liberto, A. Bennardo, and N. Mancini	
Pipelines		
Corrosion failure of sensor wire in leak detection system of thermally insulated underground pipeline	Jung-Gu Kim and Yoon-Je Choi	
New strain of anaerobic bacteria and its association with corrosion pitting of X52 pipeline steel	B. Angeles-Chavez, J. M. Romero, M. Amaya, L. Martinez, and R. Perez	
Pitting		
Corrosion failure of sensor wire in leak detection system of thermally insulated underground pipeline	Jung-Gu Kim and Yoon-Je Choi	
Electrolyte and temperature effects on pitting corrosion of type 316LN stainless steels	S. Ningshen, U. Kamachi Mudali, and R. K. Dayal	
Corrosion and erosion-corrosion of electrodeposited Ni-P/B ₂ C composites	B. Bozzini, P. L. Cavallotti, and G. Parisi	
Effect of heat treatment on corrosion behaviour of deposited Fe-40Al intermetallics	J. G. Gonzalez-Rodriguez, M. Casales, M. Amaya, and L. Martinez	
Effect of microcrystalline phases in defects on corrosion of rapidly solidified Ti ₄₇ Cu ₅₃ and Ti ₅₀ Cu ₅₀ alloys	R. S. Dutta, R. T. Savalia, and G. K. Dey	
New strain of anaerobic bacteria and its association with corrosion pitting of X52 pipeline steel	B. Angeles-Chavez, J. M. Romero, M. Amaya, L. Martinez, and R. Perez	
Influence of welding techniques on microstructure and pitting corrosion behaviour of 1441 grade Al-Li alloy gas tungsten arc welds	G. M. Reddy, A. A. Gokhale, N. N. Janaki Ram, and K. P. Rao	
Polarisation		
Corrosion failure of sensor wire in leak detection system of thermally insulated underground pipeline	Jung-Gu Kim and Yoon-Je Choi	
Effect of heat treatment on corrosion behaviour of deposited Fe-40Al intermetallics	J. G. Gonzalez-Rodriguez, M. Casales, M. Amaya, and L. Martinez	
Potential maps		
Corrosion assessment of reinforced concrete structures in corrosive environments in Chinese chemical industry	Huo Da, K. R. Gowers, Wang Dongwei, Li Dawang, Zhao Zhuo, and S. G. Millard	
Potential transient response		
Use of galvanostatic pulse measurements on active reinforcing steel in concrete to assess corrosion rates	D. W. Law, S. G. Millard, and J. H. Bungey	75
Potentiodynamics		
Electrolyte and temperature effects on pitting corrosion of type 316LN stainless steels	S. Ningshen, U. Kamachi Mudali, and R. K. Dayal	36
Rapid solidification		
Effect of microcrystalline phases in defects on corrosion of rapidly solidified Ti ₄₇ Cu ₅₃ and Ti ₅₀ Cu ₅₀ alloys	R. S. Dutta, R. T. Savalia, and G. K. Dey	221
Scanning vibrating electrode technique		
Mechanistic changes in cut edge corrosion induced by variation of inhibitor pigmentation in organically coated galvanised steel	H. N. McMurray, S. M. Powell, and D. A. Worsley	42
Ships		
Enclosed atmospheric corrosion in ship spaces	C. P. Gardiner and R. E. Melchers	272
Silver		
Electrochemical behaviour of copper-silver alloys in sodium carbonate aqueous solution	A. M. Zaky	59
Steel reinforcements		
Corrosion assessment of reinforced concrete structures in corrosive environments in Chinese chemical industry	Huo Da, K. R. Gowers, Wang Dongwei, Li Dawang, Zhao Zhuo, and S. G. Millard	70
Use of galvanostatic pulse measurements on active reinforcing steel in concrete to assess corrosion rates	D. W. Law, S. G. Millard, and J. H. Bungey	75
Steels		
Use of dicyclohexylamine nitrite in inhibition of coupled zinc and steel	E. Khamis, S. R. Oun, and S. B. Lyon	197
C-Mn steel		
Corrosion of C-Mn steel in simulated tidal and immersion zones	B.-R. Hou, J.-L. Zhang, H.-Y. Sun, Y. Li, and B. Xiang	310
Galvanised steels		
Composition and morphology of corrosion products formed on galvanised steel exposed to a swimming pool atmosphere	A. El-Turki, G. C. Allen, and K. R. Hallam	191
Cut edge corrosion mechanisms in organically coated zinc-aluminium alloy galvanised steels	M. Challis and D. A. Worsley	297
Mild steels		
Inhibiting effects of some quinolines and organic phosphonium compounds on corrosion of mild steel in 3M HCl solution and their adsorption characteristics	M. S. Abdel-Aal and M. S. Morad	253
Stainless steels		
Effects of hydrogen on formation of passive films on AISI 310 stainless steel	Z. Qin, P. R. Norton, and J. L. Luo	33
Electrolyte and temperature effects on pitting corrosion of type 316LN stainless steels	S. Ningshen, U. Kamachi Mudali, and R. K. Dayal	36
Metal and inorganic ion accumulation in biofilms exposed to flowing and stagnant water	S. L. Percival, J. S. Knapp, D. S. Wales, and R. G. J. Edyvean	105
Comparison of inhibition efficiency of some azoles on corrosion of type 304 stainless steel in acidic solutions	M. Al-Mayouf, A. K. Al-Ameery, and A. A. Al-Suhybani	127
Electrochemical corrosion behaviour of type 316 stainless steel in acid media containing fluoride ions	M. C. Li, C. L. Zeng, H. C. Lin, and C. N. Cao	179
Role of surface finish and post-fabrication cleaning on localised corrosion of type 316L austenitic stainless steel flash chambers	F. El Shawesh, A. El Houd, and O. Raghai	184
Microbially influenced corrosion on stainless steel in waste water treatment plants: Part I	A. Iversen	277

Microbially influenced corrosion on stainless steel in waste water treatment plants: Part 2 A. Iversen	284	Tubing	
Stress corrosion cracking		Coking of HP tubes in ethylene steam cracking plant and its migration X. Q. Wu, H. M. Jing, Y. G. Zheng, Z. M. Yao, and W. Ke	121
Corrosion failure of sensor wire in leak detection system of thermally insulated underground pipeline Jung-Gu Kim and Yoon-Je Choi	29	Waste water	
Swimming pools		Microbially influenced corrosion on stainless steel in waste water treatment plants: Part 1 A. Iversen	277
Composition and morphology of corrosion products formed on galvanised steel exposed to a swimming pool atmosphere A. El-Turki, G. C. Allen, and K. R. Hallam	191	Microbially influenced corrosion on stainless steel in waste water treatment plants: Part 2 A. Iversen	284
Temperature		Welding	
Electrolyte and temperature effects on pitting corrosion of type 316LN stainless steels S. Ningshen, U. Kamachi Mudali, and R. K. Dayal	36	Influence of welding techniques on microstructure and pitting corrosion behaviour of 1441 grade Al-Li alloy gas tungsten arc welds G. M. Reddy, A. A. Gokhale, N. N. Janaki Ram, and K. P. Rao	304
Tin bronzes		X-ray	
Corrosion evaluation of artificially aged 6 wt-% tin bronze G. Brunoro, G. Laguzzi, L. Luvidi, and C. Chiavari	227	Electrochemical behaviour of copper-silver alloys in sodium carbonate aqueous solution A. M. Zaky	59
Titanium and titanium alloys		X-ray photoelectron spectroscopy	
Effect of microcrystalline phases in defects on corrosion of rapidly solidified $Ti_{47}Cu_{53}$ and $Ti_{50}Cu_{50}$ alloys R. S. Dutta, R. T. Savalia, and G. K. Dey	221	Chromate passivation of hot dipped Zn25Al alloy coatings Y. Li, H. Wang, F. Feng, and X. Wei	56
Trangranular stress corrosion cracking (TGSCC)		Zinc	
Strain rate induced stress corrosion cracking in buried pipelines G. Gabetta, S. Di Liberto, A. Bennardo, and N. Mancini	24	Composition and morphology of corrosion products formed on galvanised steel exposed to a swimming pool atmosphere A. El-Turki, G. C. Allen, and K. R. Hallam	191
		Use of dicyclohexylamine nitrite in inhibition of coupled zinc and steel E. Khamis, S. R. Oun, and S. B. Lyon	197
